

Analysis Request Form – UMF Release Certificates

This analysis request form should be used for all samples that require a UMF Release Certificate. For honey not requiring a release certificate, please use the general Analysis Request Form for honey.

The UMF Honey Association (UMFHA) requires that all batches of final product requiring a UMF Release Certificate are compliant with the MPI Mānuka Honey Science Definition and meet the requirements of MPI classification of a monofloral mānuka. It is the licensee's responsibility to ensure that a batch has been tested using the MPI 5 Attributes and classifies as a monofloral mānuka when requesting a UMF Release Certificate.

UMFHA Licensee Information (To Appear on Report & Certificate)					Comments/Special Instructions								
Licensee Name	Required												
UMFHA Member #													
Contact Person	Required	Phone #	Required										
Address													
E-mail Report To	Required												
Client Reference <small>Max 15 characters</small>		Purchase Order # <small>Max 15 characters</small>			CUSTOM INVOICING DETAILS <i>Only complete if invoice recipient is different from report recipient</i>								
Submitter (if not Licensee)		Submitter E-mail or Phone											
Office Use Only					Invoice To (Company Name)								
Laboratory ID Number		Date Received		Received By		E-mail Invoice To							
REQUIRED INFORMATION					AVAILABLE TEST REPORTS		EXTRA TESTING

Samples will be retained for 4 weeks following testing. They can be returned to clients on request for the cost of handling, packaging, and return shipping. On disposal samples may be combined, and resulting bulk honey be made available to Analytica staff for personal use. By submitting samples you agree to our [Terms and Conditions](#) For test prices, turn-around times, and other information visit www.analytica.co.nz or telephone 07 974 4740.
