Post Entry Facility: Analytica Laboratories Ltd
Post Entry Type: Transitional Facility
ATF Code: 19087
Address: 10 Ruakura Research Centre Bisley Road Enderley Hamilton
Operator Name: Analytica Laboratories Limited

Special Conditions : You must comply with the import health standard/s listed on this permit and any special conditions recorded below:
IHSs can be viewed via the MPI website:
<https://www.mpi.govt.nz/legal/compliance-requirements/ihs-import-health-standards/>

Commodities imported under this permit can only be used for analysis that does not require viable samples - BIOLOGIC.ALL does not permit microorganism enrichment, isolation, or culture / enumeration.

The activities being undertaken must be covered with the scope of the facility's MPI-approved quality management system / operating manual.

The areas of the transitional facility where any invertebrate samples or products are exposed or likely to be exposed must be insect proof as approved by MPI in the transitional facility's operating manual.

Once evaluation is complete, the remaining samples, all residues and wrapping materials must be destroyed as per the facility's approved operating manual or by incineration at the transitional facility approved by MPI for that purpose.

ANIMAL SAMPLES MAY ALSO NEED TO MEET CITES REQUIREMENTS

A Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) permit to export from the originating country may be required. In the case of samples collected prior to the establishment of CITES, a declaration is required.

Items imported under this permit cannot be used in/on animals, nor in the manufacture of products for use in/on animals.

Specimens/samples meeting the biosecurity clearance requirements of one of the following BIOLOGIC.ALL Schedule 4 commodity categories CANNOT be imported under this permit:

- Dried, non-viable invertebrates for scientific research or display at an institution
 - Preserved/fixated specimens of animal tissues
 - Preserved whole animal specimens (including invertebrates), specimens of parasites, and animal faecal specimens
-

POLLEN

Consignments of pollen must be imported in accordance with part 2.1 of RESEARCH.IHS.

Important Information for Permit Holders and Agents

1. This permit, and compliance with the provisions of the specific import health standard(s) and/or entry conditions, does not guarantee that the goods you import will be given biosecurity clearance. There are other restrictions in sections 27 and 28 of the Biosecurity Act 1993 which apply to the giving of biosecurity clearance. The Biosecurity Act may be accessed at www.legislation.govt.nz.
2. You will need to ensure that the goods you import comply with the provisions of the specific import health standard(s) and/or entry conditions that are applicable. The import health standard may be amended during the course of your permit. The Ministry for Primary Industries will notify you of any significant changes to the import health standard and will re-issue the permit to accommodate these changes.
