

Restricted Import Permit

Ministry for Primary Industries
Manatū Ahu Matua

This permit is issued under The Biosecurity Act, 1993. Any queries, contact: animal.imports@mpi.govt.nz, Ministry for Primary Industries, PO Box 2526, Wellington, Phone +64 4 8940100

Authorising Officer: Harry Kwok (Balarama) on 14 Oct 2024

For the Director General, Ministry for Primary Industries, acting under delegated authority.

Importer:

Analytica Laboratories Ltd.

10 Bisley Road, Ruakura Research Centre, Hamilton 3214, New Zealand

letisha.wallace@alsglobal.com, amanda.siemelink@alsglobal.com, maya.hasegawa@alsglobal.com, quality-analytica@alsglobal.com

Countries of Export:	All Countries		
Permit Number:	B2401306IO		
Permit Status:	Approved Permit	Entry Type:	Multiple
Permit Expiry Date:	14/10/2025	Replaced Permit:	B2400379IO
Description:	Hydrolysed peptides from egg unable to meet Schedule 4 BIOLOGIC.ALL biosecurity clearance requirements.		
Import Purpose:	Evaluation and destruction	Supplier:	Various
Description:	Samples from animals and entire (dead) animal specimens (includes raw honey and honey products; refer to special conditions)		
Import Purpose:	Evaluation and destruction	Supplier:	Various
Description:	Samples of processed biological products of animal origin (includes, but is not limited to, processed honey and honey products, meat and dairy).		
Import Purpose:	Evaluation and destruction	Supplier:	Various
Description:	Extracted proteins unable to meet BIOLOGIC.ALL Schedule 4 category of 'Purified products derived from microorganisms'		
Import Purpose:	In vitro laboratory use only	Supplier:	Various
Description:	Bee venom		
Import Purpose:	Evaluation and destruction	Supplier:	Various
Description:	Honey lozenge		
Import Purpose:	Evaluation and destruction	Supplier:	Various
Description:	Pollen		
Import Purpose:	Analysis and testing	Supplier:	Various
Import Health Standard(s):	BIOLOGIC.ALL - BIO - Biological Products RESEARCH.IHS - Research Samples (excluding animal samples)		
Facility Standard(s):	154.02.17 - Transitional Facilities for Biological Products		

Post Entry Facility: Analytica Laboratories Ltd
Post Entry Type: Transitional Facility
ATF Code: 19087
Address: 10 Ruakura Research Centre Bisley Road Enderley Hamilton
Operator Name: Analytica Laboratories Limited

Special Conditions : You must comply with the import health standard/s listed on this permit and any special conditions recorded below:
IHSs can be viewed via the MPI website:
<https://www.mpi.govt.nz/legal/compliance-requirements/ihs-import-health-standards/>

Commodities imported under this permit can only be used for analysis that does not require viable samples - BIOLOGIC.ALL does not permit microorganism enrichment, isolation, or culture / enumeration.

The activities being undertaken must be covered with the scope of the facility's MPI-approved quality management system / operating manual.

The areas of the transitional facility where any invertebrate samples or products are exposed or likely to be exposed must be insect proof as approved by MPI in the transitional facility's operating manual.

Once evaluation is complete, the remaining samples, all residues and wrapping materials must be destroyed as per the facility's approved operating manual or by incineration at the transitional facility approved by MPI for that purpose.

ANIMAL SAMPLES

Pursuant to section 27(1)(d)(iii) of the Biosecurity Act 1993, Chief Technical Officer (CTO) direction 2023 082 [G] allows the following equivalence for animal samples and specimens for analysis under BIOLOGIC.ALL:

Animal samples imported for analysis, regardless of the animal's health status, can be imported as long as the following requirements are met:

1. The samples must be imported on an MPI import permit which directs them to a transitional facility approved to 154.02.17; and
2. The purpose of the import is for evaluation and destruction unless permission has been granted by MPI (in writing) for sample retention; and
3. The samples must be for analysis that does not require viable samples; and
4. The activities being undertaken on the samples must be covered in the scope of the facility's MPI-approved quality management system / operating manual.
5. The areas of the transitional facility where any invertebrate samples are analysed must be insect proof as per the facility's MPI-approved quality management system / operating manual.

ANIMAL SAMPLES MAY ALSO NEED TO MEET CITES REQUIREMENTS

A Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) permit to export from the originating country may be required. In the case of samples collected prior to the establishment of CITES, a declaration is required.

Items imported under this permit cannot be used in/on animals, nor in the manufacture of products for use in/on animals.

Specimens/samples meeting the biosecurity clearance requirements of one of the following BIOLOGIC.ALL Schedule 4 commodity categories CANNOT be imported under this permit:

- Dried, non-viable invertebrates for scientific research or display at an institution
- Preserved/fixed specimens of animal tissues
- Preserved whole animal specimens (including invertebrates), specimens of parasites, and animal faecal specimens

POLLEN

Consignments of pollen must be imported in accordance with part 2.1 of RESEARCH.IHS.

Important Information for Permit Holders and Agents

1. This permit, and compliance with the provisions of the specific import health standard(s) and/or entry conditions, does not guarantee that the goods you import will be given biosecurity clearance. There are other restrictions in sections 27 and 28 of the Biosecurity Act 1993 which apply to the giving of biosecurity clearance. The Biosecurity Act may be accessed at www.legislation.govt.nz.
2. You will need to ensure that the goods you import comply with the provisions of the specific import health standard(s) and/or entry conditions that are applicable. The import health standard may be amended during the course of your permit. The Ministry for Primary Industries will notify you of any significant changes to the import health standard and will re-issue the permit to accommodate these changes.
